## SUMMARY

Currently pursuing a Bachelor's degree in Information Technology at Bannari Amman Institute of Technology, with hands-on experience in Mobile and Web Development. Proficient in Java and problem-solving, with a strong interest in software engineering, scalable application development, and building efficient, high-quality software solutions.

## EDUCATION

**Bannari Amman Institute of Technology** Erode, Tamil Nadu

B.E Information Technology| **CGPA** : **7.44** **September 2023- Present**

**TNPMMN Higher Secondary School** Rajapalayam, Virudhunagar

Higher Secondary| **Percentage: 77.8 %** **June 2022- April 2023**

## SKILLS SUMMARY

- **Languages :** C, Java, HTML, CSS, JavaScript, SQL.
- **Frameworks :** React.js, React Native, Tailwind CSS.
- **Tools :** Figma, Git, GitHub, MySQL.
- **Cloud Platform :** AWS basics.

## EXPERIENCE

**SIH 2025** **Sept 2025**

- Participated in Smart India Hackathon (SIH) 2025 Internal Selection, contributing as a Mobile App Frontend Developer, where I designed and implemented user friendly UI components for the application.
- Gained valuable hands on experience in team collaboration, Agile problem solving, and real-world product development, working closely with cross-functional team members under time-bound constraints.

**Rathinam Hackathon 2026** **Mar 2026**

- Participated as a team member in and won a hackathon conducted at **Rathinam College**, where the team developed a web-based recruitment platform that streamlines resume shortlisting based on job-specific requirements and provides personalized learning recommendations to help engineering students identify the skills and technologies needed for their target job roles.

## PROJECTS

### Laugh-Tail

- Developed a travel mobile application that helps users find suitable tourist destinations based on location, budget, and personal preferences
- Integrated AI-based recommendations and budget planning to provide personalized travel suggestions and improve user experience.

### Employee Onboarding System

- Designed and developed a full-stack web application to streamline employee onboarding through secure authentication and workflow automation.
- Implemented offer management, document submission, and real-time status tracking to improve onboarding efficiency and collaboration between HR and employees.
